

Buteless

Buteless (not phenylbutazone) contains a combination of Devils Claw and Yucca, which are both well recognised natural ingredients, with proven beneficial effects. In an independent test the Horse Journal stated that Buteless was clearly the most effective alternative when compared

with many leading Devils Claw and Yucca products.

Key Ingredients:

- Yucca Schidigera extract
- Devils Claw

Available in 946ml solution - (Approx 1 months supply), paste - (3 x 10ml serving).

Tye-Gard

Formulated for horses on highly nutritious diets performing strenuous activities. Tye-Gard solution contains a complex of nutrients to promote healthy muscle function and lactic acid levels.

Key ingredients

- Glycine • Citric acid • Selenium
- DL Alpha Tocopherol Acetate (Vit. E)

Available in 946ml - (Approx 2 months supply at 15ml maintenance level). May be included in the feed or given orally. In periods of strenuous exercise it is recommended that the daily level is increased to 30ml.

Hoof Power Plus

Hoof Power Plus is a highly effective daily supplement to ensure optimal horn growth and hoof condition. It contains the very best quality ingredients, including a generous 25mg of Biotin per 14gms serving, making Hoof Power Plus a powerful complete hoof supplement. Hoof Power Plus is prepared in powder form, not pellets, as the high temperatures required for pelleting can be detrimental to vitamin content.

Key ingredients

- Biotin • Methionine • Vitamin B6 • M.S.M.
- Yeast Cultures • Seaweed • Sulphur • Zinc

Available in 454 gms (Approx 1 months supply) 908gms (Approx 2 months supply)

"I was very pleased by the effects of Hoof Power Plus. I used it on my mare for one month, and I have to tell you I was amazed. The top 2cm of her hooves grew vigorously and looked and felt strong and healthy. Hoof Power Plus is the first and only hoof supplement I will recommend to my clients and use for my own horse."

Hanne Engstrom, Veterinary Surgeon

Lamigard

Lamigard is formulated for the horse or pony, which is prone to Laminitis. Lamigard contains powerful antioxidants, including Super Oxide Dismutase, which are highly effective in balancing the enzymes that settle in the hoof where the circulation is weakest. Lamigard also contains valuable nutrients for the health of the hoof walls and sensitive structures.

Key ingredients

- Super Oxide Dismutase • Sulphur
- Folic Acid • Biotin • Methionine
- Vitamin E • M.S.M.

Available in 454gms – Approx 2 months supply for an average pony and 908gms – Approx 4 months supply

"I am always very cautious about these products, but I have found Lamigard to be outstanding" Dr David Platt PhD, DEO, FRCVS Specialist in Equine Orthopaedics.

Hemogen

Hemogen sets new standards for blood tonics. Most blood tonics marketed today contain only a few ingredients responsible for red blood cell production. This is where Hemogen is unique; every ingredient is active and water soluble, allowing each nutrient to be utilized for optimum energy and stamina levels.

Key ingredients

- Iron • Copper • Cobalt
- Selenium • Glycine • Thiamine
- Niacinamide • Pyridoxine
- Vitamin B12 • Riboflavin • Vitamin E

Available in 946ml (Approx. 1 months supply)

Hemo-flex

Cortaflex, Tye-Gard and Hemogen all condensed into one amazing product! Hemo-flex is the ultimate competition supplement for muscles, joints and blood.

Key ingredients

- Contains the key actives of Cortaflex, Tye-Gard and Hemogen.

Available in 946ml (Approx. 1 months supply) and 20ltr.
